

**SYLLABUS**  
**ACT Prep**  
**1st, 2nd, and 4th Block**  
**2021-2022**

**Goal:** At the end of this course, students will show proficiency in standards related to ACT content.

**Needs and Resources**

**Required Materials**

To complete this course, students will need the following:

- A calculator capable of performing graphing functions, trigonometric functions and geometric functions. (Chromebooks may be used for graphing utilities.) (Note: Cell phones will not be allowed to be used as calculators.)
- Each student will need a three ring binder with college rules, three hole paper and graph paper inside.
- Students will need a charged and working Chromebook for class. Please make sure Chromebooks are charged at home and any experiencing technical difficulties are dealt with accordingly.

**Critical Reference Material**

- Formula Sheets provided in the class Schoology folder.

**Online Resources**

- <https://www.desmos.com/calculator>

**Course Schedule**

The course agendas will be posted weekly in Schoology to outline the topics that will be covered. I will make every attempt to complete topics within the given time frame. I will remain flexible to the pace of the class so that we may move faster or slower depending upon student comprehension.

## **Policies and Procedures**

Classroom policies and procedures will follow the guidelines set out in the student handbook.

### **Classroom Rules**

**Rule 1:** Be sure to arrive in a timely manner, well prepared for learning to begin.

Students should be seated with all items necessary for the lesson when the bell rings. Students are considered tardy if they are not in their classroom by the time the tardy bell rings.

**Rule 2:** Respect yourself, your peers, and your teacher.

Disrespectful language, gestures, or attitudes will not be tolerated. Talking, making unnecessary noises, being out of your seat without permission, and making unnecessary movements are all deterrents to learning and will be considered disrespectful.

**Rule 3:** Be sure to complete your own work on time.

Directions should be followed when directed by your teacher. Students should not refer to one another's work to obtain answers. When working in groups, students should all be active participants. Failure to do your own work will be considered plagiarism and result in no credit for the plagiarized work.

### **Grading Policy**

Student grades will be calculated using a running average for the year. Students will be given Major and Minor assignments. Major assignments will count for 60% of the final grade while minor assignments will accumulate to 40% of the final grade.

### **Make up work**

Students will be expected to complete make up work in a timely manner. Students will have three days after their return to school to complete make up assignments. I will work with students on an amended time frame for those absent for an extended period of time (one week or longer).
